

Dear Parents/Guardians,

Well of GRACE Ministries has partnered with your school (and provides groups at our center in Stevensville) to offer therapeutic support to teen girls. “*Club H2O*” is a faith-based group especially designed for young women, ages 13-18. It’s a safe place for them to connect with each other while engaging in discussions and activities to increase self-esteem, healthy coping strategies and learn to build secure relationships. To join “*Club H2O*” is free to all participants and the program is facilitated by Master’s level therapists. Groups will be held during 2020-21 school year, times will be set with students in mind and groups will run for 6 weeks. Students who participate in this group will be responsible for making up any missed work while away from classes. We may rotate the schedule so that students do not miss the same class too many times or have set times, dependent on what works best for everyone.

Please return a completed registration form to your Guidance Office (if at school) or your group leader at WOGM before the first session. If you have any questions or concerns, please feel free to call us at **269-428-9355**, and/or you may visit our website at www.wellofgraceministries.com and click on the “*Club H2O*” icon.

Thank you,

Mary Andres, M.A., LPC
